Cars, jewelry, an island? Now consider achievable luxury. There are many ways you can add luxury to your life right now and you don't have to take out a loan to do it. The best Egyptian cotton sheets are one way to live your best life, but it can be difficult to find the real deal. You can find a set of sheets made of 100% Egyptian cotton, which are not only authentic, but also relatively affordable. They're going to be expensive, but we're talking about luxury again. Don't miss any part of this guide. Here you will learn how to make sure that you get original Egyptian sheets and why everyone wants them. Be sure to read the best Egyptian cotton leaf reviews, too, where you'll get to see what other people just like thinking about their purchase. What's the big one for Egyptian cotton? In 2016, the world of bed linen was rocked by news that several egyptian cotton sheets manufacturers had been reconfigured. Several retailers have launched a textile audit for one manufacturer that has passed sets of sub-products such as 100% Egyptian cotton sheets. Why would it matter? As well as the lack of integrity of a company trying to sell a cheap knockoff for a luxury item, there is also a customer who has set aside big money for something that is not really luxurious. It devastates the reputation of Egyptian cotton and muddys the waters. What's it made of? Like any other plant, cotton has different types. The Budochet plant is what grows in Egypt. Cotton is collected and twisted into extremely long staple (ELS) cotton threads. These threads are woven together to create different cotton fabrics used for clothes, underwear, etc. To add to the confusion, pima cotton is made from the same plant. Egyptian cotton & pima cotton = The same, kind of legal cotton Egyptian Cotton So you can buy pima cotton, which is much more affordable than Egyptian cotton, but it is not the same. Pima cotton is grown in America, and is usually located under the trademark Supima. Although it is not always grown in America or under the name Supima. Is he confused yet? Most of it comes down to marketing, which means that different stories from different sources. Bottom line: Whether it's Pima, Supima or cotton, they are all made with a long staple cotton, which gives the sheets you buy supreme softness and strength. Why is Egyptian cotton different? As wonderful as pima and cotton Supima are, Egyptian still reigns as the king of underwear, whether it's because it's true that it's better or the marketing is better. In any case, the reason why Egyptian cotton is different has everything to do with climate. The extra-long staple cotton grown on the Nile rivals no other cotton. Humidity and heat in this area also make a difference. And cotton plants are not treated with chemical pesticides, and fluffy cotton balls are collected by hand. All these details work together to make real Egyptian cotton softer, more luxurious and stronger than any other cotton there. Of course, because of our fascination with one of egypt's biggest exports, it was only a matter of time before producers opened loopholes to create their own Egyptian cotton. You may want to read: Supima Cotton Sheets vs Egyptian Cotton How to tell if the Egyptian sheets are authentic, it is believed that 90% of the bed linen there with labels that are read 100% Egyptian cotton are fraudulent products. Chances are, your inauthentic Egyptian cotton sheets come from cotton grown in India or China, the two most productive countries for fiber. Some producers grow Egyptian cotton in other countries, which is how they still get away with calling their cotton Egyptian. If it is not grown in the same way, then it is not authentic. Another possible way that companies get away with labelling their sheets by making Egyptian cotton is that they make cotton in the country. However, it is probably not the same plant, or grown in the same region where superior cotton is grown. Are you still being honest? To. Are you still a fraud? Also, yes. Finding the real things can be difficult, but one of the best ways to know if you're getting real Egyptian cotton, the way it was put on the market, is to read the labels carefully, seek an approval stamp (it's a small black triangle that read an authentic stamp of the Egyptian government), and consider the price. Real Egyptian cotton will be much more expensive than what you will find in a store for large boxes. 60 bucks won't be a real deal. You should expect to pay somewhere around \$200 to \$1,000 for authentic Egyptian cotton sheets. Is the price of Egyptian cotton worth paying? Whether it's worth forking out hundreds of dollars for a set of sheets is entirely relative. For many, it is a luxury without which they refuse to live. Others are pleased with other long staples. Others are still pleased with sets of microfiber sheets. There is no real way to ensure that the sheets presented here in the reviews are authentically Egyptian cotton – even with thorough testing. Labels can be falsified. And it's hard to a producer who literally grows and harvests his cotton in Egypt. So, go with your We try to trust, but we check as best we can, but even some of America's biggest retailers have been misled. The 5 Best Egyptian Cotton #1. CHATEAU HOME COLLECTION 800-thread number egyptian cotton Deep pocket saty fabric material: 100% Egyptian cotton Authentic: A small thread number: 800 Weave: Sateen flat sheet sizes (queen): 96 x 104 inches Deep pockets: 15 inches Colors: 21 one thing all Egyptian cotton sheets are total that they blend over time. These sheets from Chateau Home Collection have 800 threads, which means they are quite thick and heavy. When you buy sheets that have as tight weaving as these, they can feel a little warm. The good news is that cotton is quite breathable. You may also notice that these sheets feel a little scratched when they first sleep on them. That's normal. After a few washes, these sheets need to soften a little. Just make sure you follow the instructions on the label. The size of the flat sheet is surprisingly generous, so you can easily turn the sides without a problem. This is also important if you have a sheet sheager in your bed. The fully elastic band with elastic band should fit tightly, but the 15-inch deep pockets may not be 15 inches. Many people have reported receiving sheets that have not been looking up to 15 inches and do not fit their mattresses. Moreover, there seem to be problems with quality control. Some people say they have received sheets with appropriate labels, while others are in generic packaging without an authentic stamp to prove that these are indeed Egyptian cotton. Pros Generous flat sheet Fully elastic mounted sheet A few color options softens over time Fit quality control issues if you want to roll the dice on a set of Egyptian cotton sheets, but do not want to pay too much, consider this set. #2. eLuxurySupply 100% Set Egyptian cotton sheet – 1000 Thread count SPECIFICATIONS Material: 100% Egyptian cotton Authentic: Unlikely thread count: 1000 Weave: Sateen flat sizes (queen): 96 x 104 inches Deep pocket: 18 inches 10 Return: 30 days As with any set of Egyptian cotton ones from eLuxurySupply will not be terribly soft when you first pull them out of the package. It takes several washes or more to soften the fibers of single-layer cotton. Once they do, you'll probably like those sheets. The fabric is sateen, but these sheets are missing that weigh or shine. Still, they're smooth. Plus, they are heavy and thick, which means high quality. However, many people who have purchased these sheets report that the sheets are fast to pill and then tear. Also, the sheets are likely to shrink after they have been washed. Although deep pockets are designed to fit up to an 18-inch thick mattress, they do best on beds that measure no more than 13 inches. Perhaps the best part about of these premium sheets is customer service. They're working with you to fix what's wrong again. Again. Excellent softer customer service over time Heavy, thick Washing and Anti-Drinking is common Fit questions If you are looking for Egyptian cotton sheets that are washed and worn well, these may be the ones for you. Take a #3. MALOUF Artisan Italian cotton pearl leaves SPECIFICATIONS Material: 100% Egyptian cotton Authentic: Likely Number of threads: 400 Weave: Percale flat sheet sizes (queen): 100 x 106 inch Deep pockets: 22 inches Colors: 2 Warranty: 10 years Do not let the title of these sheets fool you - MALOUF Artisan Italian cotton sheets are made of 100 Egyptian percent, cotton cotton, cotton Luxury is defined differently from any person, and if you prefer the cool, cool sensations of the laundry sheets, then this may be the tip for you. The fabric of these sheets is light, cool and smooth. They are soft in this way, which is not slippery or satin. And that's fantastic. Deep pockets are up to 22 inches thick. The flat part is supervised by a few centimeters on all sides. This set is quite complex, but that's what you get when you buy 100% Egyptian cotton – a big price. You also get a 10-year warranty, which is not usually from the world of bed linen. Some people have noted that the sheets begin to pill or extract, but this can be a user error. These sheets need special care, and so you need to follow the instructions for washing accurately. Completely elastic, elastic sheet Extremely deep pockets Generously mounted sheet Cool, fresh 10-year warranty If you want this fresh, cool feel of percale in smooth fabric made of 100% Egyptian cotton, this set can be made for you. Take a look #4. Sferra Grande Hotel Sheet Set Material: 100% Egyptian Cotton Authentic: Possible thread count: 200 Weave: Percale flat sheet sizes (queen): 96 x 114 inches deep pockets: 17 inches Colors: 1 People in Sferra want to know exactly where your sheets come from and where they are made. While they are Egyptian cotton, there is something to pay special attention to in the description: They are Italian Egyptian cotton. This means that it can be the same plant used in Egypt to form an extremely long stapler of cotton, but possibly grown in Italy. In any case, these sheets are not made to keep you warm. Instead, these 200-thread number of leaves are made with percale tissue, which creates a fresh feeling for them. They're designed to keep you calm. The fully elastic plastic should fit tightly on the mattress, as long as it is not thicker than 17 inches. And the flat flat paper is surprisingly long. This makes a good feature for tall people, but also allows you to fold down at the top of the sheet where it is embroidered, and still have the legs of your bed covered. These are expensive sheets, which gives him a little confidence to be real Egyptian cotton. However, these sheets may be too for your taste. Pros Fully elastic built-in sheet Long flat sheet Cool, fresh If you want to squeeze and thin sheets sheets To keep you cool, these Egyptian cotton linens may do you good. #5. Vivendi 1000 thread count Egyptian cotton 4 piece sheet set SPECIFICATIONS Material: 100% Egyptian cotton Authentic: Unlikely theme number: 1000 Weave: Sateen flat size (queen): 90 x 102 inch deep pockets: 18 inch Colors: 5 When it comes to buying Egyptian cotton sheets, you may never be too careful, but Vivendi's 1,000-thread sheets have all the right features to show they're authentic - except for one thing. So, these sheets are marketed as single-layer, which is good. And they are heavy and thick, which is also good, especially for a set of satin weave sheet. The feeling of these sheets may be a little firm at first, but they should be mitigated over time and with multiple washes. This is another trademark of Egyptian cotton. The construction of these sheets leaves much to be desired. The flat sheet is too small for most beds, leaving exposed to the mattress. The mounted sheet should work for most beds, thicker to 18 inches, and the elastic path is everywhere, so it should be tight-fitting. Not everyone was lucky, saying these sheets shrunk a little. Although this set is advertised as Egyptian cotton, the label does not match the official stamp. And these sheets are made in India. Still, many buyers loved the feel of these sheets. Pros Thick, heavy softener after washing Fully elastic mounted sheet Silk smooth Work issues Fit Questions If you want thick, heavy sheets to warm you up, these Egyptian cotton sheets may be the right choice for you. You may want to read: An Egyptian cotton quilt covers the Bottom Line truth in the ad seems to have gone the way of a dinosaur, which can make it hard to make sure you get what you pay for. You need to arm yourself with knowledge and know what to look for to make sure you don't get the wool pulled over your eyes, or in this case, egyptian cotton pulls over your eyes. Of all the sheets discussed above, and they are all luxurious in their own rights, there is a single brand that stands out above the rest. Malouf Artisan Italian cotton lingerie lingerie come with a hefty price tag, but it also comes with greater authenticity than any other brand. Those who have bought this sheet are spinning how amazing they feel – even after the first wash. The propeller of the fabric produces a lukewarm sheet, which is great in the summer months. Durability is incomparable from any other natural fabric, and if something does not go wrong with these sheets, MALOUF will do it right with a 10-year sheet warranty. Egyptian cotton sheets are luxuriously soft. When produced with a saion weave, they offer a silky smooth surface with a shimmering shine. When produced with percale tissue, they offer a lighter and breathable surface. Both variants have unparalleled softness compared to any other cotton sheet. If you are looking for a perk weave, consider Artisan Malisan Italian cotton MALOUF Artisan Artisan Sheets. Made in Italy, these sheets are light, cold and smooth. They can fit a mattress up to 22 inches thick and have generosity. We think that they are very likely authentic and thus the price is well justified. A 10-year warranty is another supplement that is almost unheard of for chards. How does it feel for Egyptian cotton? Egyptian cotton feels luxuriously soft and stronger than any other cotton. Extremely long egyptian cotton threads are incomparable, being tightly woven to create beds, which provides a soothing feeling of sleep. What's so good about Egyptian cotton? Egyptian cotton can only be provided from a plant grown in Egypt, near the Nile River. The reason this cotton is seen as the king of linen is because the heat, humidity, and overall climate in this area all give their stronger, softer, and overall premium feel. To preserve this, cotton plants are not exposed to pesticides or chemicals. In addition, they are collected by hand each season, so as to put less stress on the fibers, ensuring that hand-picked cotton balls remain intact. This allows the creation of extremely long staple (ELS) cotton threads, which in turn are carefully woven into fabrics for beds and other products. Is Egyptian cotton the best for sheets? Many consider Egyptian cotton as the best material for sheets. Extremely long threads give a stronger and soft fabric with a high number of threads. Dense tissue from these threads also leads to longevity for the sheet. But whether this is the best material for you depends on what features you are looking for, on your budget and personal preferences. If you want to indulge in the cotton sheet you want, then egyptian cotton is on top of the line. But if you are ready to deviate from cotton, microfiber, Tencel, and 100% silk leaves are all great opportunities to consider. How many Egyptian cotton sheets? Authentic Egyptian cotton sheets are luxury purchases and can cost anywhere from \$200 to \$1,000. Depending on the fabric and the number of threads you choose, these sheets will resist the enclosures, remain soft and last long, proving that they are worth the extra money. But you will want to be careful when analyzing the price of Egyptian cotton sheets. Many sheets on the market marked as 100% Egyptian cotton are inauthentic – made from cotton grown in India, China or another country. Sometimes cotton is harvested in Egypt, but not from the same plant or from the same region as the superb Egyptian cotton. If a \$60 sheet is marked as Egyptian cotton, it's probably not authentic. One way you can make sure you pay for the right sheet is by checking for the authentic stamp of the Egyptian government. of the government.
